

**Product: 4 Loop-black**  
**Style: Casual**

1. Pull all of the loops to the top of the twister and then brush hair all of the hair into a ponytail and secure it by using the center of the Loopy Twister temporarily ignoring the four loops. Then, pull and straighten the loops, so they are evenly distributed across the top of the ponytail.
2. Take a little of the hair that is directly below the first loop, bringing it up and pull it through the first loop securing it until it is tight. Take the some of the hair that is directly below the second loop and pull it through, securing it by looping the band around it. Take the some of the hair that is directly below the third loop and pull it through, securing it by looping it around. Take the some of the hair that is directly below the fourth loop and pull it through, securing it by looping it around.
3. Now you have four small ponytails hanging straight down, tighten or straighten any band that needs it.
4. This is a cute way to wear the style or you can keep going by pulling part of the hair back through the band to form a loop. You can do this all of the way across or every other one. You also can wax the ends of the hair to spike it up at the top of the ponytail. Remember to check the video again if you need help!

To Remove:

Pull each small strand of hair straight out until hair is freed. Then pull middle out like you would a regular ponytail and straighten out Loopy Twister for next use.
