

Product: 5 Loop-black
Style: Casual, advanced

1. Take a five loop twister with the loops evenly spread around and twist the bang section on the left side and then twist the bang section of the right side and bring it back into a low ponytail taking the center of the Loopy Twister and putting it into your hair like a regular ponytail. Then, pull and straighten the loops, so they are evenly distributed around the ponytail and are easily accessible.
2. Take a section of hair from the right side and pull it through the loop on the top right side, tightening the band around the hair once or twice until it is securely around a loop of hair. You will pull this mini-bun to the right side and then begin on the far left side. Take the second section of hair and pull it through the top left loop, tightening the band around the hair and pulling out the bun to the left. Now, it looks a bit like a bow.
3. Take the third section of hair, which is the second to the left loop and tighten around the loop of hair. Take the second to the right loop (the bottom loop) and tighten the band around the loop of hair. Gently spread and tighten the loops, kind of pulling toward the bottom. Now you have the center loop remaining which is directly over the last section of hair. Finishing securing the middle and last piece of hair in the loop. It is ok if some of the hair straight down and not looped up. Now take each mini bun and pull the hair spreading the bun. You can also pull some of the hair in the bun down a bit to straighten. Keep tightening and the spreading the hair in the loops, until you get the desired look

To Remove:

Pull each small strand of hair straight out until hair is freed. Then pull middle out like you would a regular ponytail and straighten out Loopy Twister for next use.
