Then, pull and straighten the loops, so they are around the head evenly.
2. Take the first section of hair on the top, twisting it back and pull it through the top loop tightening the band around the hair several times until it is secure leaving a loop. Take the second section of hair on the right side twisting it acrossed to the other side tightening the band around the hair a securing a loop in with the upper left loop. Then, take the left section of hair and twist it around, securing it through the top right loop and again leave a loop.
3. Find the two remaining loops underneath the hair and take the loop to the right and pony up the hair and then do the same on the left.
4. Pull the hair from the middle out gently until a bun forms. Spread and pull on the ponys and loops until you get the desired look.
