

Product: 6 Loop-black  
Style: Casual

1. Brush hair into a ponytail and take the center of the Loopy Twister and put it into your hair, as if it were a regular ponytail, temporarily ignoring the smaller, 6 loops. Then, pull and straighten the loops, so they are even all around the head, like on the video.
2. Divide the hair that is through the ponytail into six equal parts. Pull each one of the six segments through the smaller loops. Loop each one twice, so that you now have six mini ponytails.
3. As shown on the video, pull a little bit of the hair back through the center loop, giving you a little room to work with.
4. Now take each mini ponytail and pull the tighten band around it creating six small loops.
5. Pull the center of the middle section gently, which pulls some hair from the loops into the center which forms a bun.
6. Gently pull back and forth until you get the desired look. You will tighten and pull gently from the center or from the loops depending on what you like.
7. If you like a wilder style, pull the hair straight out into a mini ponytail and fan over. If you don't like it loop in back.

### To Remove:

It is important to pull each small strand of hair out, until hair is freed. Please take your time removing the small six loops of hair before taking the whole twister out, so that you don't tangle up your hair. When all six sections of hair are freed, then pull middle out like you would a regular ponytail and straighten out Loopy Twister for next use.
