

Product: 6 Loop-black Removal

To Remove:

Please see the video if you need extra help.

It is important to pull each individual strand of hair out from the loop, until hair section of hair is freed. Please take your time removing the small, six loops of hair before taking the whole twister out, so that you don't tangle up your hair. When all sections of hair are freed, then pull the middle out, like you would a regular ponytail and straighten out Loopy Twister for next use.
