

Product: 3 Loop-black
Style: quick pony

1. Take all of the loops and bring them to the top of the band. Brush 40% of the hair into a ponytail at the crown of the head, taking the center of the Loopy Twister and put it into your hair as a tight ponytail, temporarily ignoring the other three loops. Then, pull and straighten the loops, so they are evenly distributed at the top of the ponytail. Divide the hair that is in the big pony into three sections.
2. Take the left section of hair and pull it through the left loop, tightening the band. Take the next section of hair at the right side, pulling it through the right loop tightening the band around. And finally, take the middle section of hair and pull it through the middle section, tightening the band.
3. Pull and straighten until you get the desired look!

To Remove:

Pull each small strand of hair straight out until hair is freed. Then pull middle out like you would a regular ponytail and straighten out Loopy Twister for next use.
