

Product: 3 Loop-black
Style: Hollywood-inspired braided ponytail

1. Brush flat ironed hair into a high ponytail using about 1/3rd of the hair, leaving the rest of the hair out of the ponytail in the front to use later. Take the center of the Loopy Twister, and put it into your hair, as if it were a regular high ponytail, temporarily ignoring the three loops and the hair that is left out. Then, pull and straighten the loops, so they are evenly distributed across the top of the ponytail.
2. Divide the hair that is left outside the ponytail into three parts, also leaving the bangs out if you have them. Twist the first section of hair, bringing it over the top of the head and pulling it through the opposite loop. Divide the second section of hair splitting it in two, making the front section larger (to use later for the braid) and take the back section of hair twist it over, pulling it through the middle loop and then tighten and fan it back. Take the third section of hair and bring it flat over the top of the head and braid it down all of the way (start braiding about a third of the way down) wrap around the pony tightly, several times before pulling it through the third loop, or securing it with a pin. Fan the ponytail so it is high up showing off the braid.
3. If you have side bangs left down, you can leave them, braid them back or across the head or twist them back, joining the Loopy Twister or secure with a decorative bobby pin. You'll look fabulous!

To Remove:

Pull each small strand of hair straight out until hair is freed. Then pull middle out like you would a regular ponytail and straighten out Loopy Twister for next use.
