

Product: 4 Loop-black  
Style: DIY, simple, fun

1. Take the crown section of hair from both sides and brush into a partial ponytail in the middle of the crown of your head, taking the center of the Loopy Twister, putting it into your hair ignoring the rest of the hair and the other four loops. Then, pull and straighten the loops, so they are across the head evenly. Leave over half of your hair down.
2. Take the first section of hair on the right and twist it, pulling it through the bottom right loop, tightening the band around the hair several times until it is secure leaving a pony. Take the remaining section of hair on the right and twist it and bring it into the top right loop tightening the band around the hair a securing it. Take the half of the hair that is on the left, twist it and then secure it with the bottom left loop. And then, take the last part of the hair and twist it and bring it into the top right section of the twister.
3. Pull and spread gently until you get the desired look. Fast and easy!

#### To Remove:

Pull each small strand of hair straight out until hair is freed. Then pull middle out like you would a regular ponytail and straighten out Loopy Twister for next use.
