

Product: 4 Loop-black
Style: Casual

1. Take a four loop twister and move all of the loops to the top, right next to each other. Brush hair into a low ponytail, and take the center of the Loopy Twister, and put it into your hair, as if it were a regular ponytail, temporarily ignoring the four loops. Then, pull and straighten the loops, so they are evenly distributed across the top of the ponytail.
2. Divide the hair into four equal parts. Take the first section of hair, and pull it through the first loop, tightening the band around the hair once or twice until it is secure. Take the second section of hair and pull it through the second loop tightening the band around the hair. Take the third section of hair and pull it through the third loop and once again, tightening around the hair. And finally, take the last section of hair, and pull it through the fourth loop, tightening the band.
3. Now take each mini bun and pull the tightened band around it, spreading the bun. You can also pull some of the hair in the bun down a bit to create a fan effect at the top of the bun, depending on how much you pull on the twister. Keep tightening the spreading the hair in the loops, until you get the desired look.

To Remove:

Pull each small strand of hair straight out until hair is freed. Then pull middle out like you would a regular ponytail and straighten out Loopy Twister for next use.
